

**Got Aluminum Wheels?
Let Snider Tire get them in tip-top shape for you!**

BEFORE & AFTER

BENEFITS

- Fully-automated robotic wheel polishing system restores aluminum truck and bus rims to a mirror finish.
- Quickly refurbishes road-wear wheels to reveal any hidden damage before a wheel can break.
- An inexpensive way to get a new-wheel look and maintain your vehicle's appearance.
- Better quality results than hand-polishing for a deeper, long-lasting shine.
- Increases useful wheel life, improves safety, and boosts vehicle resale value

OUR OFFER

- We can polish your aluminum wheels and return them to you, or...
- Use our "Wheel Swap" program and you take the number of newly polished wheels you need from our stock, and we take your undamaged wheels to polish and put in our stock.
- ***Call your nearest branch below for details and pricing — you will be glad you did!***
